You are enrolled in Professional Management Program, the professional management service offered by Advised Assets Group, LLC. Any applicable fees for this service have been included as an expense on this statement. For specific questions on fees, please contact an investment advisor representative through your plan's customer service number.

The **How will my future contributions be invested?** section informs you where your future contributions will be directed. These allocations were chosen specifically for you by the Professional Management Program you are enrolled in at this time. You can view any transactions implemented by the service in your online investment account.

Under the **How is my account invested?** section, the allocation is based on the information provided to the service. If you have a change in circumstances, please contact an investment advisor representative through your plan's customer service number to update this information on your account.

Your Investment Advisor's Form ADV Parts 2A and 2B (the Brochure) are updated from time to time when material changes have occurred but at least annually. To request a copy of this disclosure statement at no charge, call us at your plan's customer service number or you may view the Brochure on your online retirement account.

What is the rate of return on my retirement account(s)?

Period	Year To Date
<u>07/01/2021 - 09/30/2021</u>	<u>01/01/2021 - 09/30/2021</u>
-1.17%	7.78%

Personalized performance information is provided to account holders as a general approximation of the overall recent performance of your account. It is calculated based on a formula which estimates the equivalent rate of return during the stated period, based on the opening balance, transaction activity including any applicable fees, and closing balance. Performance calculations will not include loan balance. Past performance is not a guarantee or prediction of future investment results.

How have the investments in my plan performed?

The Investment Code can be used when you request certain investment related transactions on the voice response system.

Performance data quoted represents past performance and is not a guarantee or prediction of future results. Investment returns and principal value of an investment will fluctuate so that, when redeemed, shares/units may be worth more or less than their original cost. Funds are subject to certain market risks. Current performance may be lower or higher than performance data shown. Performance for a share class before its inception is derived from the historical performance of the oldest share class. If the newer fund has lower expenses, the extended performance is not adjusted for the lower expenses; had it, returns would have been higher. For performance data current to the most recent month-end, please call 844-465-4455 or visit www.relx401kplans.com.

On occasion, the name and/or objective of an investment may change. Investment decisions should not be based solely on the performance data contained herein. Although data is gathered from reliable sources, the completeness or accuracy of the data cannot be guaranteed.

Returns reflect deduction of fund operating expenses. Your Plan may also assess administrative fees which would reduce the results shown above.

Funds may impose redemption fees and/or transfer restrictions if assets are held for less than the published holding period.

Expense ratios shown on participant and plan level statements are gross expense ratios and do not include any applicable fee waivers or expense reimbursements, as do net expense ratios. The expense ratios may be based on a prior reporting period than those shown on the Plan's investment performance report. For the most current expense ratios, including the net expense ratios, please visit www.relx401kplans.com and review the investment performance report.

-----An Important Message about Investing for Retirement & Diversification-----

To help achieve long-term retirement security, you should give careful consideration to the benefits of a well-balanced and diversified investment portfolio. Spreading your assets among different types of investments may help you achieve a favorable rate of return, while minimizing your overall risk of losing money. This is because market or other economic conditions that cause one category of assets, or one particular security, to perform very well may cause another asset category, or another particular security, to perform poorly. If you invest more than 20% of your retirement savings in any one company or industry, your savings may not be properly diversified. Although diversification is not a guarantee against loss, it is an effective strategy to help you manage investment risk. In deciding how to invest your retirement savings, you should take into account all of your assets, including any retirement savings outside of the Plan. No single approach is right for everyone because, among other factors, individuals have different financial goals, different time horizons for meeting their goals, and different risk tolerances. It is also important to periodically review your investment portfolio, your investment objectives, and the investment options under the Plan to help ensure that your retirement savings will meet your retirement goals. Visit the Department of Labor website at www.dol.gov/agencies/ebsa/laws-and-regulations/laws/pension-protection-act/investing-and-diversification for more information on individual investing and diversification.

-----An Important Message about Market Timing / Excessive Trading-----

Pursuant to SEC rules, fund companies are required to enter into agreements with intermediaries to provide fund companies with the ability to identify and enforce restrictions on participants engaging in market timing or excessive trading (prohibited trading), as defined by the fund companies. Participants engaging in prohibited trading will receive a warning and, if the prohibited trading continues, will be restricted from transferring into the identified fund(s) for a specific time period determined by the fund company. Some fund companies may restrict participants immediately, without warning when prohibited trading is identified. At the end of the restriction period, the participant will be automatically allowed to resume transfers into the identified fund(s). Transfers out of the identified fund (s) will not be restricted.

----- An Important Message about your Benefit Information -----

This benefit statement provides your vested benefit payable under the plan as of the end of the statement period. If you are terminated and eligible for a distribution, you may obtain more detailed information about your distribution options for these amounts by accessing your plan's Website or reviewing your Summary Plan Description (SPD). The amount eligible for a distribution in a lump sum may vary from the amount shown on this statement due to investment gains and/or losses that occur after the statement period end date. If you have any questions concerning your benefits, please contact the Service Center.
