The investment suggestions contained in this Statement are provided to you free of charge by Vanguard Advisers, Inc. (VAI). To obtain more information about VAI, please call 800-523-1188 or go to vanguard.com. You are under no obligation to accept any advice or investment suggestion. Although the suggestions are based on generally accepted investment principles, VAI can not guarantee that any particular investment suggestion, if implemented, will be profitable. All investments involve risks, and fluctuations in the financial markets and other factors may cause your account, or particular securities in your account, to decline in value.

The investment suggestions provided in this Statement do not comprise comprehensive investment or financial advice. Before taking any action on your account, you should consider your other assets and investments, and how they fit into your financial goals. If the suggestions in this Statement are based in part on information you entered into an investor questionnaire, you should be sure to retake the questionnaire if your circumstances or goals change, as those changes may result in different suggested asset allocations.

In addition to any fees or expenses that may be listed on this statement, some of the plan's administrative expenses for the preceding statement period were paid from the total annual operating expenses of one or more of the plan's designated investment alternatives (e.g., through revenue sharing arrangements, Rule 12b-1 fees, subtransfer agent fees or similar fees).

‡‡Additional Information

Diversification: To help achieve long-term retirement security, you should give careful consideration to the benefits of a well-balanced and diversified investment portfolio. Spreading your assets among different types of investments can help you achieve a favorable rate of return, while minimizing your overall risk of losing money. This is because market or other economic conditions that cause one category of assets, or one particular security, to perform very well often cause another asset category, or another particular security, to perform poorly.

If you invest more than 20% of your retirement savings in any one company or industry, your savings may not be properly diversified. Although diversification is not a guarantee against loss, it is an effective strategy to help you manage investment risk. In deciding how to invest your retirement savings, you should take into account all of your assets, including any retirement savings outside of the plan. No single approach is right for everyone because, among other factors, individuals have different financial goals, different time horizons for meeting their goals, and different tolerances for risk.

It is also important to periodically review your investment portfolio, your investment objectives, and the investment options under the plan to help ensure that your retirement savings will meet your retirement goals.

Diversification does not ensure a profit or protect against a loss.

For more information regarding individual investing and diversification, see the internet website of the U.S. Department of Labor at: <https://www.dol.gov/agencies/ebsa/laws-and-regulations/laws/pension-protection-act/investing-and-diversification>

Investments: Generally, if your plan permits you to direct investments you can make those changes by contacting Vanguard Participant Services or by logging into your account at vanguard.com. There may be restrictions that apply to the investments in your plan. For example, the Vanguard mutual funds have restrictions designed to limit frequent trading. Some plans also may limit the timing and frequency of investment and exchanges in certain funds. Any such restrictions or limitations have been previously communicated to you. Please note that if you are enrolled in an investment management or advisory service, you may need to unenroll from the service to direct investments yourself. If you have any questions, please see your plan's Summary Plan Description or contact Vanguard Participant Services for additional information about your plan.

Vesting: Vesting refers to the portion of your account balance that is nonforfeitable. If your vested balance does not appear on the statement, please see your plan's Summary Plan Description for vesting information or contact Vanguard Participant Services for more information to enable you to determine your vested benefit.

Social Security: Some employers make contributions based on a formula that considers the Social Security taxes paid. Your plan's Summary Plan Description provides details on the formula for determining any employer contribution.

The Vanguard Real Estate Index Fund pays quarterly distributions consisting of dividend income, return of capital, and capital gains. The tax characteristics of these distributions cannot be determined until after the end of the year since the Real Estate Index Funds in which the fund invests do not designate the composition (i.e., dividend income, return of capital, and capital gains) of their payments until the new calendar year.

‡‡‡ Performance figures for periods of more than one year are expressed as average annual total returns. Performance figures include the reinvestment of dividends and capital gains distributions. Return since inception is listed under "Since Inception." The inception date is under "Inception Date."

For more information about Vanguard funds, visit vanguard.com, or call 800-523-1188, to obtain a prospectus or, if available, a summary prospectus. Investment objectives, risks, charges, expenses, and other important information about a fund are contained in the prospectus; read and consider it carefully before investing.

All investing is subject to risk including the possible loss of the money you invest.

Connect with Vanguard® > 800-523-1188 > vanguard.com

Bond funds are subject to the risk that an issuer will fail to make payments on time, and that bond prices will decline because of rising interest rates or negative perceptions of an issuer's ability to make payments. Investments in stocks or bonds issued by non-U.S. companies are subject to risks including country/regional risk and currency risk. While U.S. Treasury or government agency securities provide substantial protection against credit risk, they do not protect investors against price changes due to changing interest rates. Although the market values of government securities are not guaranteed and may fluctuate, these securities are guaranteed as to the timely payment of principal and interest.

The Fund Performance Summary on this statement shows how the Funds in your Plan have performed over time. Please keep in mind that the performance of these Funds, as compared with your balance, may differ depending on how and when your money was invested. The Fund Performance Summary includes industry benchmarks that match the objectives of your Funds. The benchmarks give a broad overview of the markets. These measures are specific to their associated Funds and should not be used to compare Funds with different investment objectives. Net total return is the net change in an investment after deducting expenses, assuming all dividends and capital gains were reinvested. Past performance is not an indication of future results. All figures are unaudited.

The funds or securities referred to herein that are offered by The Vanguard Group and track an MSCI index are not sponsored, endorsed, or promoted by MSCI, and MSCI bears no liability with respect to any such funds or securities. For such funds or securities, the prospectus or the Statement of Additional Information contains a more detailed description of the limited relationship MSCI has with The Vanguard Group.
